Portfolio: Xavy-Romeo.github.io/XavyRomeo/

SUMMARY

Front-End Web Developer who received a Full Stack Web Development certificate from UCLA Extension Boot Camps. Highly skilled professional, known as a problem solver, with a degree in Business Economics from UC Irvine. Continuously develops and updates apps, building on skills such as React, Material-UI, JavaScript, CSS, HTML, MongoDB and many other languages learned along the way. Excited to bring my problem solving and technical skills to a quality team, with the ability to grow and become a company's valuable asset.

TECHNICAL SKILLS

HTML, CSS, JavaScript, React, Material-UI, jQuery, MongoDB, Bootstrap, API, DOM manipulation, Responsive Design

FEATURED PROJECTS

The Xavy Shop | **Full Stack Web Developer**
  Deployed Link: the-xavy-shop.herokuapp.com | GitHub: github.com/Xavy-Romeo/the-xavy-shop
  - MERN Stack E-Commerce application where you can purchase your favorites sporting goods.
  - Manages global state through React's Context API and local state through React hooks.
  - Created with a React front end, styled using Material-UI and receives data from a GraphQL API.
  - Built entire app from start to finish.

Manage-It | **JavaScript Developer**
  Deployed Link: cryptic-bastion-04157.herokuapp.com | GitHub: github.com/Xavy-Romeo/manage-it
  - Full Stack Task Manager application that uses Handlebars, MySQL, Express, and Node.
  - Uses DOM manipulation to dynamically generate task data.
  - Pulls data from an Express API.
  - Developed the JavaScript portion of the project and built the back-end server.
